

800A Temporary Distribution Box

Overview

The Powertron Contractor Series TBQCCM08 Tap Box (800A) offers quick connection to a mobile emergency generator, allowing you to receive temporary power quickly and safely. Simple Design: A modest design that gets the job done. As standard, the box is rated at 800A; boxes can be linked together to achieve higher amperages. We stock both source and drain variants, which come with a lid as. Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and. The Powersafe Sequential Mating Box is a three phase power distribution board for temporary electrical installations. The connection point has a high current rating of 800A and is compatible with other manufacturer's connectors. Designed to facilitate quick generator connections and load bank testing, these tap boxes ensure power. Supporting up to 800 Amps, Roam's MTC® 6003 IES8KvB series ("v" = Voltage Code) of Power Input Panels provides a rugged and cost-effective, exterior connection point for temporary power input to trailers, buses, or temporary structures. Roam's 800A Power Input Panels use E1016 (J-Series/16 Series).
