

How many ports does a 4-fiber optic switch have

Overview

This series offers flexibility with up to four RJ45 Ethernet ports, providing seamless integration into various networking environments. Our ESW-2206 optical fiber switch has 2 Fiber Optic SFP Module ports and 4 X 10/100/1000 Base-TX copper RJ-45. It supports dual optical SFP modules and Gigabit transmission speeds, with a 1000Base-T maximum transmission distance. VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously. Various port sizes are available ranging from 4 up to 52 ports. We offer solutions that provide seamless transmission and conversion. Supporting distances up to 80km, the TC3705 10/100Base-T Ethernet Fiber Optic Switch provides one multimode or single mode optical port and four Ethernet ports. The TC3705's modern switching technology eliminates the congestion problem inherent to the contention-oriented Ethernet CSMA/CD protocol. Lfiber's fiber optic switch is available from 4 to 256 ports/channels (typically 128/64/32/24/16/8/4 port). CONTROLS: (4) Pushbuttons to select network port. DISPLAY: (4) Status red LED's; (4) Link red LED's. POWER: UL approved 120 VAC/60HZ wall mount power module supplies 12VDC, 500 mA to the. The EL100-X series represents a cutting-edge solution in network connectivity, featuring unmanaged 4-Port switches designed for high-speed data transmission at 10/100 MBit/s.
