

Huawei 100g Multimode Pigtail

Overview

The FTLC9558REUM 100G QSFP28 pigtail transceiver modules are engineered for application in 100 Gigabit Ethernet connections over multimode fiber and are capable of withstanding environments with liquid immersion. This optical module supports 1-to-4 splitting. After the splitting, it can be connected to the 25Gbase-SR optical module. The QSFP-100G-LX4-MM 100GBASE-LX4 LC Duplex QSFP28 compatible with Huawei has a receiving function (receiver with CWDM) and a transmitting function. This QSFP28 is a transceiver modul for 100Gbit/s and conforms to the QSFP28 MSA and IEEE 802. 3bm 100GBASESR4 and CAUI-4. FS offers a growing portfolio of 100G QSFP28 modules. The 100G QSFP28 module solution provides high-performance 100GbE connectivity for data centres, enterprise core & distribution layers, computing networks and service provider applications. Click to get your 100GBE transceiver modules from nearby.
