

IP45 distribution box

Overview

Our IP45 enclosure provides enhanced protection against solid objects and water, shielding internal electrical components from objects larger than 1 mm and water jets from all directions. It is suitable for indoor or semi-outdoor environments where occasional water exposure may occur. These enclosures are widely used across residential, commercial, and industrial applications due to. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. IP45 enclosures offer a high level of protection against particles such as dirt, dust, oil and other non-corrosive substances. Not only that, but IP45 adds protection against water splashing onto the machine. The MEPE IP45 Distribution Box boasts a robust construction using high-quality carbon steel materials. The box is designed to withstand harsh. Q:Can I order the cabinet/enclosure/box and the wiring material from you or other supplier,you make wiring and assembly for us ?

A:we have engineering, wiring and assembly team for low voltage/medium voltage/high voltage/DC control. can make drawing and diagram to confirmation and proceed the.
