

Intelligent Latitude and Longitude Light Controller Module

Overview

The digital programmable street light controller (or known as smart street light controller) is based on the digital programmable time control switch, and adding rain control probe, optical control probe (light control probe), longitude and latitude control circuit and. The digital programmable street light controller (or known as smart street light controller) is based on the digital programmable time control switch, and adding rain control probe, optical control probe (light control probe), longitude and latitude control circuit and. 10/12 Circuits 16A/20A/50A Latitude & Longitude Smart Electrical Lighting Module for Intelligent Lighting Control System Features & Functions Technical Parameter :Upgrade your smart home with our RS485 light controller module, featuring intelligent time control and geo-location adaptability for versatile lighting solutions. Full night light, automatic midnight light, two-section light, can add light control probe as light control type latitude and longitude intelligent street light controller. The HHQ16 Series Latitude/Longitude Street Light Controller automatically adjusts on/off times based on location and season., which can sense the. Company Introduction:Xinling Electrical Co. Now we have 10 sub-branch companies, each company is responsible for manufacturing different kinds of electrical products, We have more than 100 cooperation units, and 100 direct distributors, 1000, 000 square meter. The present invention discloses an intelligent longitude and latitude time control light-operated switch, comprising a lower shell, an upper shell, a power supply module, wiring ports, control buttons, a display screen, a longitude and latitude control module, a processing unit, a light-operated.
