

MA5626 Optical Port Module

Overview

The Huawei MA5626 offers a cost-effective solution with its single XPON uplink module and 8FE ports, ensuring high performance at a reasonable price. Can I use the Huawei MA5626 in high-demand network environments?

Yes, the Huawei MA5626 is suitable for high-demand. The SmartAX MA5620/MA5626 Remote Optical Access Unit (MA5620/MA5626 for short) applies in fiber to the building (FTTB) and fiber to the curb (FTTC) scenarios. In the downstream. Optical Network Units (ONUs) with Power-over-Ethernet (PoE) support, comprehensive QoS features including Dynamic Bandwidth Allocation (DBA), and up to 8 downstream ports. Ideal for IPTV, video monitoring, and wireless broadband services in small and medium-sized offices. The MA5626 applied on FTTx. A: We supply ONUs/OLTs/SDH/DWDM/Switches/Routers/Wireless series of Products including Q2. What is your terms of packing?

Q3.
