

Secondary distribution box 380V 238

Overview

Provide the largest capacity available in the market today - 22 cu. single gang, and 38 cu. Designed for applications where a combined high and low voltage closed back box is needed such as placement in a fire-rated wall. Manufactured out of a highly engineered thermoplastic material to provide extra strength and durability. They have a Very high positive review rate of 100. A1: We are a professional welder manufacturer. Q2: Can you. Penghan Electric Co. It integrates functions such as overload protection, short-circuit protection, leakage protection, metering, and intelligent control. Widely applied in buildings, industrial.
