

Senegal optical fiber cable

Overview

The country connects to more than 40 countries through four submarine fiber optic cables: Main One, Atlantis-2, SAT-3/WASC, and the Africa Coast to Europe (ACE) cable. Despite market growth, certain challenges remain such as limitations of fixed infrastructure and a mobile sector dominated by Sonatel. Sonatel has activated the 2Africa subsea cable to strengthen broadband capacity and network resilience. The 45,000 km system delivers up to 180 Tbps, about ten times the capacity of older cables. Senegal fiber optics cable import market in 2024 saw a shift in top exporters, with China, France, India, South Korea, and Areas, nes leading the pack. The Herfindahl-Hirschman Index (HHI) moved from very high concentration to a more moderate level, indicating a more diverse market landscape. TendersOnTime, the best online tenders portal, provides latest Senegal Optical Fibre tenders, RFP, Bids and eprocurement notices from various states and counties in Senegal.
