

Shared bracket for cable trays

Overview

This bracket allows you to mount straight sections of cable tray to the wall or floor of your data center, network closet or industrial space and extend your cable management application. It mounts to the wall or floor with user-supplied hardware and then effortlessly snaps. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resiliency and safety. These are the most corrosion-resistant tray systems we offer for. A secure Cable Management system starts with the right support, and Cable Tray Brackets are the backbone that holds it all together.
