

Which is better H3C or Huawei fiber optic switches

Overview

Huawei Ethernet Switches and 3Com H3C Switches are direct competitors offering network solutions for businesses. Any experience with Huawei or H3C switches?

According to Gartner March 2023, top datacenter switch brands are: Cisco and Arista are super expensive where we are. Anyone got experience with the two?

And which is better?

We have hundreds of H3C (Comware) switches. H3C has a rating of 4. See side-by-side comparisons of product capabilities, customer experience, pros and cons, and reviewer demographics to find the best fit for your organization. See more companies in the Data Center and Cloud Networking (Transitioning to Data Center). H3C S6812/S6813 and Huawei CloudEngine S6730-H / S6730-H-V2 are the closest "same-role" options: they target 48x10G downlinks plus 6xQSFP28 uplinks (40/100G) on Huawei, and 48x10G + 6x100G on H3C. The practical difference that most often breaks projects isn't brand—it's uplink deliverables: H3C. When evaluating enterprise switches for data center deployments, Cisco leads in global support and software maturity, while Huawei and H3C offer 30-50% cost savings with comparable performance for AI and cloud workloads. Hewlett Packard Enterprise holds a 0.9% mindshare in ES, compared to. With so many switches, which one is better, Huawei, H3C, or Ruijie?

Good afternoon, my network worker friend.
